

ISLANDWOOD™
A SCHOOL IN THE WOODS

ENVIROPALOOZA: WHAT A WONDERFUL WORLD!

:: SUNDAY, APRIL 18, 2010 12 - 4 PM ::

Join IslandWood for the 3rd annual ENVIROPALOOZA – a celebration of National Environmental Education Week (April 11-17) and Earth Day (April 22). An afternoon of family fun focuses on what a wonderful world we live in.

:: PROGRAM HIGHLIGHTS ::

- **Pacific Science Center's Science On Wheels** program (<http://www.pacsci.org/>) joins us for the day with "Harvesting Science" – bilingual hands-on exhibits that explore how science and agriculture go hand in hand.
- **Science On Wheels planetarium** shows, featuring an interactive astronomical experience that helps to make sense of the seasons, will take place throughout the day.
- In addition, IslandWood joins in a world-wide effort to bring awareness to the issue of access to safe drinking water. The **Dow Live Earth Walk for Water** (<http://liveearth.org/en/home>) will include a 6K course, which represents the average distance that most people in the world have to travel to get to a source of fresh drinking water. Bring along your own jugs and carrying apparatus to experience firsthand what it is like to have to carry your own water.
- **Enviro-Fair:** Local organizations will have displays and information about living greener as well as upcoming Earth Day activities
- **Summer Camp Open House** in the Learning Studios. Learn about IslandWood's camps and get a sneak peek at the summer experience.
- **Other arts and educational activities** are planned throughout the day on the main campus as well as along the trails.

ENVIROPALOOZA: WHAT A WONDERFUL WORLD!

:: WHAT'S HAPPENING WHERE! ::

Welcome Center

1-hour Sustainability Tour of the IslandWood buildings

Leaves at 1:30 PM

45-minutes Family Friendly Tour

Leaves at 2:30 PM

Explore IslandWood from a camper's perspective.

Great Hall

Pacific Science Center: Starlab Planetarium

1pm, 1:50 PM, 2:40 PM, 3:30 PM

It's always a starry night inside our portable planetarium! Our 30-40 minute interactive astronomical experiences propel you out into the universe to make sense of the seasons.

Dining Hall

Enviro-Fair:

Local organizations' displays and information.

Art Studio

Leafing Out!

Learn how to identify the different trees found on Bainbridge Island and create leaf rubbings that you can take home.

Bluebill Cove (Learning Studio 105)

Pacific Science Center: Harvesting Science Exhibits

Get to the root of the matter with Harvesting Science! With these bilingual hands-on exhibits, explore how science and agriculture go hand in hand. Can you tell a good bug from a pest? What kind of soil grows the biggest crops? How do machines keep a farm running? Learn all this and more as you delve into the wonderful world of agriculture!

SUMMER CAMP OPEN HOUSE

Come explore with us and check out some of our summer camp activities in the Learning Studios. There's fun for kids of all ages! Stop by the Registration and Information Booth in the hallway to learn even more!

- **Learning Studio 102: Salmon Ropes Course**
Learn what it's like to be a salmon and follow your nose!
- **Learning Studio 103: Skull and Bones**
Figure out what bone goes where.
- **Learning Studio 104: Macros Under Microscopes**
Explore the world of macros and create watercolor drawings of the different critters you see.

Out on the Trails

- **Dow's Walk for Water.** Don't forget to bring your own water jugs to experience what it's like for a large portion of the world's population to obtain safe drinking water.

- **"Bog"gle your mind at Charlie's Bog**
- **Bird Brains 101 at the Bird Blind**
- **Take a guided blind ropewalk and discover a whole new world**
- **What's bugging folks at Mac's Pond?**
- **Discover what's growing in the Garden Classroom**

EARTH DAY TRIVIA:

1. The first Earth Day was celebrated on _____.
2. The first Proclamation of Earth Day was by _____, the City of Saint Francis, patron saint of ecology.
3. The Peace Bell was a gift from this country: _____. It was made from coins given by school children to further peace on our planet. On Earth Day, the Peace Bell is rung at the moment of spring.
4. The world's first national park, started in 1872, is _____ in the U.S.A.
5. The Seven Natural Wonders of the World include: _____.

(Answers will be provided at Enviropalooza.)
