

NOVEMBER NEWS AND EVENTS

OUR LIVING MACHINE: SAVING
WATER & INCREASING SUSTAINABILITY

We've made big upgrades to our 20+ year-old Living Machine that we're super excited about! Our on-site sewage treatment system that utilizes plants to clean water will significantly reduce the use of water on our Bainbridge campus.

We sat down with IslandWood Senior Facilities Manager, Mark Becker to talk about these updates. You can read about them in [this blog post](#) →

You can also take a deeper dive into the Living Machine updates on Sun, Nov 12th at IslandWood for a tour and conversation. [Get your tickets to the event](#) →
